

Wintmalt - *Winter Barley*

EAR

- Ear - no. of rows : 2
- Ear - glaucosity : medium to strong
- Ear - attitude : horizontal
- Ear - awn length compared to ear : longer
- Ear - density : semi-lax

PIGMENT

- Pigment - awns : absent
- Pigment - lemma nerves : absent
- Pigment - flag leaf auricles : present, weak

FIRST RACHIS SEGMENT

- First rachis segment - length : long
- First rachis segment - curvature : moderate to slight
- First rachis segment - margin hairs : sparse

STERILE SPIKELET

- Sterile spikelet - attitude : divergent
- Sterile spikelet - glume + awn length : long
- Sterile spikelet - palea length c.f. lemma : medium

GRAIN

- Grain - rachilla hair type : short
- Grain - rachilla length : short
- Grain - inner lateral nerve spicules : present, 3 to 6 per grain
- Grain - ventral crease hairs : absent
- Grain - lodicules : collar
- Grain - aleurone colour : blue

ADDITIONAL CHARACTER(S)

- Additional character(s) - sheath hairs : present

FIRST RACHIS SEGMENT

- First rachis segment - width : medium
- First rachis segment - profile : bent back to straight

STERILE SPIKELET

- Sterile spikelet - lemma tip : square

GRAIN

- Grain - rachilla hair distribution : even
